## THE COMPANY: ARTPHOTO JENNY PERSSON

2005- Art, photography, graphic design and illustration

To create art within strict boundaries or limitations is what I do best. My aim is always to either step out of the box altogether or stretch the boundaries of it to the verge of breaking, still keeping within the breach. I thoroughly enjoy working with site or subject specific art - my mind always ticks over when confronted with a brief for a photo shoot, book design, illustration or piece of art.

Photographically I have two specialties: one is artistic, unusual and mood-setting photos - the other is precise, technical and accurate representation of an object, a person or an interior. They are each others opposites and maybe

I wouldn't enjoy one of them as much if it wasn't for the other.
